Billing in 6-second increments vs. 1 minute rounding

QUESTIONS AND ANSWERS

Q... How can you offer such low rates?
By purchasing in volume we obtain discounts on phone time. As a customer you receive the benefits of the discounts only available through volume purchases.

Q... Will there be a difference in the quality of the service I receive?
Absolutely not! You get "crystal clear" quality of the latest fiber optic technology. And you get first-class treatment, including operator assistance, and customer service.

Q...What about billing?
Each month you will be sent a detailed statement directly from PNG Telecommunications that will list each of your calls. The bill is in an easy to read format.

Q...Will it cost me anything to start this service in my home?
NO. However, you local carrier may charge a small fee for switching long distance service. It is usually \$5 or less. PNG will credit this fee.

Q...Do I need additional lines for the 1-800 service?
NO

Q... Do I have to dial extra numbers or codes to place a call?
NO. Your dialing is the same as AT&T. By the way, most carriers give you a 60-sec. Rounding, we give you 6 sec. Rounding.

Q...How does 6 second rounding save me money?

If your call lasts for 5:06, most carriers charge you for the full 6 minutes. We charge you for 5:06 minutes of calling time. This is an *additional savings of 15%*.

CALL ANYWHERE IN THE U.S.A.
